THE BEST IN HEMEROCALLIS

7007 Manchester Ave.  
Kansas City 33, Missouri

TO OUR FRIENDS, past, present and future . . .  
To those who make the printing of this catalog  
possible each year . . . by their continued patron-  
age and recommendations . . . we dedicate our  
1958 catalog.

If you are not at present a customer of Lenington  
Gardens . . . we welcome you to become one. We  
assure you of absolute satisfaction with a money-  
back guarantee.

LENINGTON GARDENS  
Bob and Alice

## *Lenington Gardens*

---

- A young firm starting its eighth year of business.
- A name synonymous with quality.
- The largest grower in the midwest specializing exclusively in *Hemerocallis*, with a selection of well over 1000 commercial varieties and many thousands of named and unnamed hybrid seedlings.
- A firm which customizes its service with freshly dug plants for each order.
- The home and point of origin of Lenington hybrids.
- A firm which welcomes constructive criticisms by its customers for improvement of its service.
- A firm that honestly and earnestly tries to give its customers the most in quality and selection for their money . . . because it believes that the beauty and joy that flowers bring should not be limited to those of a specific financial class.
- A firm affiliated and working with many outstanding growers and organizations for the furthering of interest in, and improvement of, the varieties of the genus *Hemerocallis*.

## **HEMEROCALLIS - - DAYLILIES**

Their advantages in your gardening plans are many. Hems, daylilies or whatever term you choose to call them, are the most up-and-coming genus of plant life, in the United States today. You ask why . . . just read the following:

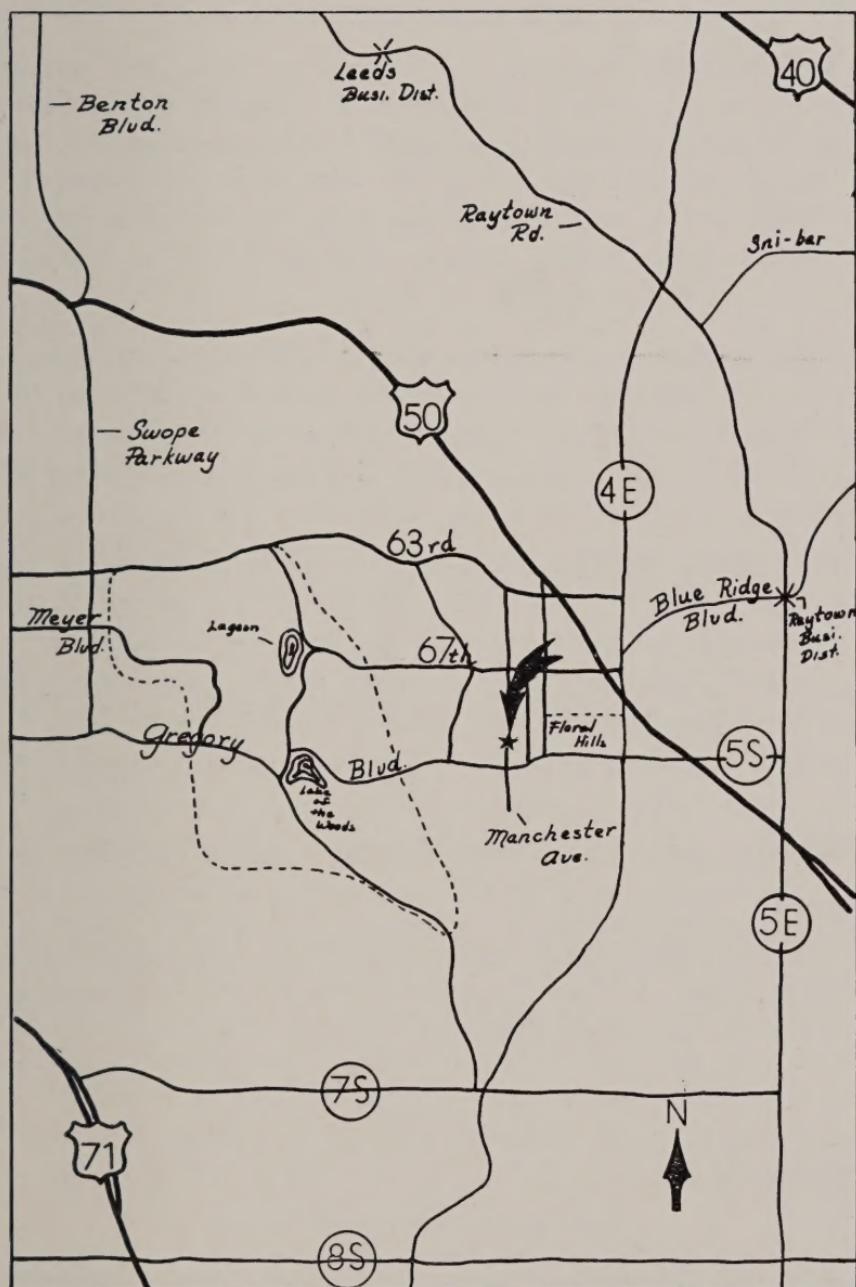

- drought resistant (note this, midwest gardeners).
- a summer blooming perennial (bloom from early spring until frost by selection of varieties).
- practically insect and disease free, certainly the cleanest ornamental this writer can think of at present.
- wide in its range of colors, heights, blooming characteristics (dates, form and shape of bloom and various other habits).
- can serve as a specimen, be used in borders, as an edging, for screening, soil retention of banks, living mulches, accent points and a plant that will grow with reasonable success where others fail.
- will adapt themselves to climatic and soil conditions.
- just the thing for fresh delicate bloom around the patio for those summer evening garden parties. Select evening blooming varieties for this and be the envy of your friends and neighborhood.

---

## **LENINGTON VARIETIES**

"Bred in the Heart of America . . .

For performance throughout America"

### **1958 INTRODUCTIONS**

**SUSAN WEST**—One of the reasons we chose this chrome yellow flower was because of its unusual flaring form. The wide petals are rounded, very creped and ruffled. Green tinge in the throat. Excellent texture and branching. When established it sends up two or three sets of bloom stalks during a season. M 38" SE. ..... **\$15.00**

**TRIM LINE**—Everyone likes this full flower of pale, creamy yellow with it's trim, narrow, brick-red eye-zone. In full sun it often lightens to a near white by evening but doesn't melt. M 33" EV. ..... **\$10.00**

**MARSHALL BAILEY**—A very dependable, worth-while lily with fluted broad yellow petals, broad yellow sepals and a green throat. Maroon-red eye-zone on petals only. Heavy substance and sun proof. Erect, heavy scapes are well branched and bear an abundance of lovely flowers. EM 38" D. ..... **\$10.00**

**McPICK**—We like this little ruffled darling for the front of the border. Wide, flaring, apricot-yellow petals with a rosy flush when given plenty of moisture. Sepals and throat both yellow. Heavy substance. Erect scapes. EM 24" SE. ..... **\$12.50**

---

### **PREVIOUS INTRODUCTIONS**

**BONNER CHARM**—A low growing, very light empire yellow self. Wide, crinkled, slightly recurving petals have a white midrib. Sepals recurve slightly. This 5 inch crepe-like full flower is acclaimed as one of the palest of the light yellows and it receives lots of compliments. Blooms over a long period. M-L 24" SE. ..... **\$4.00**

---

## *Lenington Gardens*

---

**GREEN ENVY**—This lovely apricot-buff flower with its vivid apple-green throat has received Ohs and Ahs from all who have seen it. The petals are very ruffled and the green of the throat extends nearly half way out each segment. Well branched and sun resistant. J.C. 1956. H.M. 1957. ML 32" SE. Stock Limited. Fall Delivery only. .... **\$25.00**

**GYPSY ROBE**—Ruffled, golden-buff petals with a rich coral veining and a wide light midrib. The large greenish-yellow throat is topped with a coral-red eye-zone, petals only. Has a lot of sheen and loves the sun. Well branched. Fast multiplier and long bloomer. EM-ML 32" SE. **\$2.50**

**LADY BONN**—A lily that endears itself to us more each year as we note its performance. Light canary yellow flowers, that glisten as though they had been sprinkled with diamond dust. The blooms are more than 6" in diameter and are carried gracefully on well branched erect scapes. Flowers sun and rain resistant and remain open late at night. M 38" EV. .... **\$3.50**

**LEMON SHERBET**—This very pale yellow flower with its green throat is a joy to those who make corsages and arrangements. A slightly recurving full flower with wide, ruffled petals. Good branching. Remains open late in the evening M 30" EV. Stock Limited. .... **\$7.50**

**MIZZOU (R. L. Lenington)**—A rich, velvety, dark red-purple. Ruffled petals are pinched and stand erect. Sepals recurve slightly. A small, golden-yellow throat. The flowers, borne on stiff, erect stems, can be seen from anywhere in the garden. Admired and wanted by all who see it. Sun resistant. Said by many to be the best variety of its color. M 30" D. .... **\$15.00**

**THURZA**—A very large, recurving flower of red and yellow blend. Wide, slightly ruffled petals. Heavy substance, sun proof and well branched. Blooms over a long period. This lily is a favorite of many. You will enjoy growing this lovely flower in your garden as much as we do. M 38" D. Stock Limited. .... **\$10.00**

If you have a variety in mind that you were unable to find listed, please write - - we may have it.

## CULTURAL TIPS

PLANTING TIME may be anytime the ground is tillable, but spring or fall planting is recommended. It should be remembered that fall planting in northern gardens must be done far enough in advance of cold weather to allow the plants time to establish themselves in order to prevent heaving. It must also be remembered that newly set plants must have abundant moisture to insure new root development. This is especially true in cases of plants set in advance, or during, hot, dry, weather. *Hemerocallis* correctly planted and once established are quite capable of taking care of themselves, but do require the above considerations at planting.

SOIL REQUIREMENTS: They will thrive in almost any garden soil, provided the soil is not poorly drained or too heavily shaded and is of reasonable fertility. Daylilies, when given special consideration and care, reward us richly in performance and beauty. Printed suggestions and *complete planting instructions* are sent with each order.

FIRST YEAR RESULTS: No variety should be judged by its performance the first year. Only after a daylily becomes established . . . usually by the second or third year . . . will it produce characteristic bloom. Of course, no bloom or performance can be judged as normal during unusual or extreme weather conditions.

---

### Extra Services:

If you are JUST STARTING with daylilies and wish suggestions on varieties to purchase, drop us a line. Include in your letter what amount you wish to invest in a variety or starting collection and we will suggest or make up a selection for your climatic conditions and locality . . . on a strict moneyback guarantee. You can't lose when you deal with **Lenington Gardens**.

## **READ BEFORE ORDERING**

**Terms:** Cash with order. Payments should be made by check or postal money order. Currency sent through the mail must be done so at the risk of the customer. Missouri customers must add 2% for Mo. Sales Tax.

**Postage:** All orders over \$5.00 are sent postpaid. Please add 50c for orders under \$5.00. If Special Handling is desired, add 20c extra.

**Shipments:** Shipments are made from April 15th through November 15th. However, it is recommended that all orders from Northern gardeners be shipped before September 15th. All orders are subject to prior sales and will be shipped when weather permits.

**Guarantee:** All plants sold by Lenington Gardens are guaranteed to be true to name, healthy, vigorous and to reach you in good condition. Any plant reaching customer in damaged or unsatisfactory condition should be returned promptly and replacement or refund will be made. Because of the varying gardening skills and conditions, over which we exercise no control, we cannot make any guarantee beyond that listed above. We are, however, interested in the performance of our customer's plants and always welcome reports on them.

**SPECIAL SHIPPING DATES . . .** will be honored as nearly as possible, but we must reserve the right to judge the actual shipping date (as influenced by weather, etc.). We can assume no responsibility unless we accept an out of season shipping date *as advisable*.

**FOREIGN SHIPMENTS . . .** Because of our expansion of sales and inquiries from Europe and other countries, we must require these customers to assume postage expense on such orders. We will ship by the method customer prefers, but suggest strongly Air Parcel as the most efficient.
